### **WITNESSETH**

*WHEREAS* the LCHD is engaged in grant-making activities designed to address public health concerns including chronic disease prevention.

*WHEREAS* under Indiana law, LCHD is empowered to grant money from their allocated Health First Indiana ("HFI") funds to external organizations which agree to complete Core Public Health Services ("CPHS") and work toward completion of the required Key Performance Indicators ("KPIs").

*WHEREAS* the LCHD is in need of assistance from external organizations to complete some of the state required CPHS and KPIs and is requesting Grantee to become a community partner in the delivery of certain services as delineated herein.

*WHEREAS* the Grantee represents that it is duly qualified and agrees to perform all services and reporting described in this grant contract to the satisfaction of the LCHD.

*WHEREAS* the Grantee has submitted a program proposal asking for funding to provide the core public health services in accordance with the Health First Indiana Initiative; details can be found at <https://www.in.gov/healthfirstindiana>.

*WHEREAS* the LCHD has determined that such a program is in public interest and wishes to support it with the grant funds subject to the terms and conditions herein.

NOW, THEREFORE, in consideration of the mutual covenants as contained herein, the parties agree as follows:

- 1.4. Phone: 219-365-6034
- 1.5. Fax: n/a
- 1.6. Email: msharp@stjohnin.gov
- 1.7. Name of Proposed Program: Mobile Integrated Health

Target Population: At-risk population starting from birth to elderly, program includes safe sleep, Safe sitter, Car seat safety, Mobile patient visitation of elderly or patient diagnosed with conditions such as, congestive heart failure, chronic obstructive pulmonary disease, Pneumonia, fall risk, and home safety.

2. PROGRAM, PURPOSE, AND SCOPE

- 2.1. Grantee has submitted a proposal entitled Mobile Integrated Health Transport (“Program”).
- 2.2. Program Purpose. The purpose of this grant is to support the Grantee’s Program, which aims to: The program is newly established home visitation program that assess the needs and gaps in either service or resources to better aid our community and keep our elderly patients in their home longer while feeling safe and confident that their needs are met. Increased access to quality health care, increased access to primary care providers instead of using 911 or the emergency department as a physician. Educating the public in health and wellness based on diagnosis as well as safety and the available resources to bridge the gap in services. Access to physician services, including specialists with the ability to pick up medications for the patient. We recently received a waiver from the state medical director that allows for the transportation of patients to appointments or pharmacy in the event there is no other form of transportation. Program advancement in the areas of home immunizations and vaccinations to bed-bound/home-bound community members on an individual basis. The program currently has one vehicle and is limiting the number of visits as the patents are scheduled around the one vehicle. The purchase of 2 vehicles would allow for an increase in not only the number of patients but the area of coverage as well. The initial program was built to grow and move into larger parts of the county with the end goal of being available to the entire county. This is a continuation of growth and service expansion.
- 2.3. Scope of Program Services. The delivery of patient medical diagnosis and community education in the home under comfortable conditions allows for better understanding of the conditions/diagnosis and care plan. The delivery and access to care including specialists and resources combined with the ability to ensure patients have access to transportation to and from facilities will continue to aid in the reduction of 911 and Hospital emergency room usage in place of primary care physicians.
